Aug 2021 - Oct 2021

HTML/CSS and Accelerated Javascript Courses

May 2021 - Aug 2021

Centennial College

Aviation Technician - Aircraft Maintenance

Aug 2014 - May 2016

PROFILE

Meticulous front-end developer who is comfortable working with React, Javascript and HTML/CSS to make a web accessible to everyone. I am passionate about learning new things with a flexible mindset. Aspiring to utilize my troubleshooting skills and communication skills I learned as an Aircraft Maintenance Engineer to excel as a Front-end Developer.

CAREER ACCOMPLISHMENT

Drove 1.3K real user traffic in a week after the launch of Koppulso which was developed to help Korean-Canadians to easily find Korean books from the Toronto Public Library website. This project was built by a team of four which consists of a project manager, a back-end developer, and another front-end developer under Agile Methodology. Our story was printed in Canada's biggest Korean newspaper, The Korea Times.

PROJECTS

WORDLE | [REPO](#) | [LIVE](#) |

HTML / CSS / JavaScript/ React

- Built a Wordle game using multiple APIs including Random Word API and Free Dictionary API.
- Utilized custom hooks for API calls to reuse stateful logic and reduce the amount of repeated codes.

WHAT DO YOU KNOW | [REPO](#) | [LIVE](#) |

HTML / CSS / JavaScript / React / Firebase

- Built a learning game where users are presented with two randomly generated homophonous words and a single definition.
- Developed using Datamuse API through group programming.

DAILY LOG | [REPO](#) | [LIVE](#) |

HTML / CSS / JavaScript / React / Firebase

- Built a CRUD application where users can utilize it to record and keep track of their daily activities.
- Implemented React-Calendar to store user data by date.
- Developed a data management system to store users' input using Firebase.

EXPERIENCE

AIRCRAFT MAINTENANCE TECHNICIAN

Skysservice/Sky Regional Assigned, Nov 2016 - May 2020

- Performed scheduled and unscheduled inspections to check flight readiness of aircraft.
- Analyzed engineering drawings and schematics to troubleshoot systems and diagnose solutions.
