## PROFILE

Meticulous front-end developer who is comfortable working with Javascript and HTML/CSS to make a web accessible to everyone. I am passionate about learning new things with a flexible mindset. Aspiring to utilize my troubleshooting skills and communication skills I learned as an Aircraft Maintenance Engineer to excel as a Front-end Developer.

## PROJECTS

### WHAT DO YOU KNOW | [REPO](#) | [LIVE](#) |

HTML / CSS / JavaScript / React / Firebase

- A learning game where users are presented with two randomly generated homophonous words (e.g. piece and peace) and a single definition. The user must match the correct spelling to the definition. WDK was developed through group programming.

### DAILY LOG | [REPO](#) | [LIVE](#) |

HTML / CSS / JavaScript / React / Firebase

- A CRUD application where user can utilize it to record and keep track of their daily activities.

### BEST FRIEND FINDER | [REPO](#) | [LIVE](#) |

HTML / CSS / JavaScript

- This app uses API calls to display adoptable animals. If a specific type of animal is not currently available to adopt, we have filtered them using error handling. BFF was developed through pair programming.
